HOLD THIS AD UP TO YOUR EAR!

Listen carefully. What do you hear? NOTHING, right? That's what a wireless transmitter, amplified microphone or tape recorder sounds like when it's NOT OPERATING. Makes no difference! We can detect them all... whether ON or OFF... with the all new BOOMERANG™ non-linear junction detector.

Using a BOOMERANG in conjunction with a countermeasures receiver and a telephone analyzer gives the security director a complete arsenal against eavesdropping attacks. It's lightweight, has a rechargeable battery, and comes complete with all accessories in a rugged travel case. Best of all—it's affordable!

Get your ear off this ad and on the phone. Call Sam Daskam now.

Counter Measures

Ask Bruce Margolin of The Unicorn Club Apts. how we perform.

"As General Manager of 435 quality apartments in Mission, Kansas, safety and protection of person and property is foremost. Over the past eight years, we have 'gone through' five security firms before discovering Advance Security. Now, at last, we've found the security professionals we've always needed."

"Advance truly cares. What impresses us most is that Advance Security, by constantly utilizing planned preventive techniques which they have apparently almost perfected, actually prevents security problems before they happen. But when the unavoidable does occur, their response effectiveness is incredible. It's almost as if an entire team comprised of experienced management experts comes to your aide and resolves things clamly, intelligently and most thoroughly. 'The Advance Team,' for our management organization, has been a winning team ever since they've been on our side!"

Advance Security serves diversified clients like Bruce Margolin throughout America. Our security and investigative services are all-inclusive. Advance Security is able to offer better service because it selects better personnel and keeps them aboard by offering greater benefits. And we've learned, more benefits for our personnel result in more benefits for our clients.

Please write or call TOLL FREE (800) 241-0267 to learn more about the many benefits of hiring The Advance Team.

SHORROCK PROTECTION THE WORLD OVER.

For almost two decades, Shorrock has been recognized as the leading innovators and suppliers of intruder alarm and perimeter detection systems. During that time, Shorrock has designed, manufactured, installed, and maintained more than 30,000 security systems throughout the world.

Shorrock offers advice on security problems and, through the Shorrock worldwide consulting services, can make available to you up-to-the-minute information on the state-of-the-art in the security world.

Systems available to you through Shorrock Inc. include:

- Microwave Detection Systems
- "S.I.D."–Selective Impulse Detector
- "T-Line" Intrusion Detection System
- Access Control Systems
- Microcomputer-based Alarm Reporting Systems

For more information, contact:

SHORROCK INC.

BALANCED FOR HIGHEST SECURITY

Sentrol's 2700 Series magnetic contacts are what you need to solve those security problems where protection of the highest order is required. That's like in industrial, business and government installations. Designed with a system of triple biased switches (patented) these units are virtually defeat free using an external magnet. They require no time consuming adjusting during or after installation and they can be used on steel doors or cabinets without performance deterioration. Approved in Defence Intelligence Agency Manual 50-3.

UL Listed

Sentrol 2700 Series switches and magnets are fully encapsulated in tough aluminum cases to be fully weatherproof and adaptable for use in any environment for a long period of time. For more details, send for Sentrol Product Information Bulletin or call TOLL FREE... 1-800-547-2556.
